They continued to close up on them and then opened fire. The Germans did all they could to induce them to desist without bloodshed, but without avail. They had taken refuge behind some graves while parleying, but as the only response to their entreaties was a general fuelliade from their assailants, and as branches from the trees were falling about them, out off by the bullets or by shots from the enemies gons, they saw that the situation was desperate, and determined to Isel their lives dearly. They were all armed with revolvers, and began returning the fire of their foes. As their revolvers made comparatively little poise, and gave off almost no smoke, the Chinese set up a shout of derision, and came on more holdly for a little time, until they noticed one and another of their company falling, and then they began to realize that the foreign revolvers were doing execution, if not making a noise, and they began to give way. The Germans then spring to their feet, ran toward their assailante twenty steps, and falling to the ground. renewed firing. This movement they repented two or three times, when the Chinese forned and fied. In the meantime their cervants and barrowmen had scattered and of their six barrowloads of effects all but one barrow-load had been carried off. THE NEW AMOY DOCK COMPANY

On 25th March the seventh ordinary general meeting of the sharsholders in the above Company was held at the office of Mesars. Laprait, Cass & Co., Amoy. There were present Messis. The Chairman said-Gentlemon, the report has been with you for some days and with your kind permission we will consider it as read. As stated, the docking work offered during the year has been unusually small. It is eatlefactory, however, to know that apart from notual dook rent, a fair living can be picked up, to which the increasing launch treffic contributes a fair share. After a long period and original lease is causelled, and new titles (white deed), &c. are now in our hands; we have peried with some of our water frontage, but have gained a corresponding area partly on reclaimed land. Altogether, we have obtained a clean perpetual lesse, against one terminable in 6 years, a yearly rental of 29 tacks against \$30 and 20,000 square feet of valuable land with frontage of 75 foot. I am forry to inform you that chiefly on account of ill-health we ire about the lose by retirement our Manager, Mr. J. Anderson, who leaves us about the end of this month. However, being a powerful crowaid head, the Char's project will be read a first time at his Hague Congress while Germany is adding 80 new batteries of artillery to her logious, and a few more corps d'armée. The Muioat affair has cured France of any further altempts at pin pricking England, and the latter found out the secret of utilizing her admirals as diplomatists. France follows the discreption of China with great interest, and the penetration of Italy into the flank of the Celestial meribund is proof that European Powers had better carve out their material guarantees in time.
